MAIL STOP PETITION
COMMISSIONER FOR PATENTS

PETITION TO ACCEPT UNAVOIDABLY DELAYED PAYMENT OF ISSUE AND PUBLICATION FEES (ALTERNATIVELY TO ACCEPT UNINTENTIONALLY DELAYED PAYMENT OF ISSUE AND PUBLICATION FEES)

The Applicants hereby petition the Office to accept the unavoidably delayed payment of the issue and publication fees for the above-referenced application. The Applicants have filed herewith the form PTOL-85b for the application, along with payment of the issue and publication fees, in response to the Notice of Allowance mailed December 27, 2007. Please charge to Deposit Account No. 02-4550 the fee of \$510.00 as required by 37 C.F.R. 1.17(l).

The entire delay in filing the form PTOL-85b (along with payment of the issue and publication fees) from the due date for replying to the Notice of Allowance (March 27, 2008) to the filing date of this petition was unavoidable. As to the delay between March 27, 2008, and June 11, 2008, the Applicants did not receive the Notice of Allowance mailed December 27, 2007, as it appears that the Notice of Allowance was not properly mailed. Although the correspondence address shown on the Notice of Allowance is correct (Exhibit A), the Notice of Allowance was returned to the Office as being "undeliverable" correspondence (Exhibit B,

screenshot of information available on public PAIR showing Notice of Allowance as “Mail returned to USPTO as undelivered” in the entry dated “1-02-2008”).¹

The payment of the issue and publication fees for the referenced application was not delayed due to any clerical or docketing error on the part of Klarquist Sparkman, LLP or its attorneys. As such, the Applicants are not providing materials about docketing systems and practices of Klarquist Sparkman, LLP. See M.P.E.P. 711.03(c).II.C.2. Rather, the M.P.E.P. explicitly recognizes that unforeseen errors in “agencies of mail” can be considered “unavoidable.”

The word “unavoidable” . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.

Id., citation omitted.

As to the remaining delay up to the filing of this petition, Examiner Patel attempted to contact the most recent attorney of record for the case, Mr. Kyle Rinehart, on June 11, 2008, to discuss the status of the application. Mr. Rinehart is currently out of the office for business and vacation reasons, but he is checking email and voicemail occasionally. Examiner Patel discussed the situation with Iris Rasanen, a legal assistant at Klarquist Sparkman, LLP, to confirm the correct mailing address for the application, and to indicate that a supplemental Notice of Allowability would be mailed shortly (with a courtesy copy faxed on June 11, 2008). Ms. Rasanen promptly contacted Mr. Rinehart by telephone. On June 11 and 12, Mr. Rinehart reviewed the correspondence for this application and began preparing this petition.

For these reasons, the Applicants petition the Office to accept the unavoidably delayed payment of the issue and publication fees for the above-referenced application. Should the

¹ Applicants also note that the entry of Exhibit B dated “2-11-2008” and described as “Notice of Allowance and Fees Due (PTOL-85)” is not a new Notice of Allowance, but rather a page from the Applicants’ April 30, 2007, Response to Restriction Requirement showing a small change made by the Examiner concerning the location of an amendment to the specification.

Office require any additional information from the Applicants, please contact the undersigned attorney or Mr. Rinehart.

Alternatively, should the Office deny the petition to accept the unavoidably delayed payment of the issue and publication fees, the Applicants hereby petition the Office to accept the unintentionally delayed payment of the issue and publication fees for the above-referenced application. The Applicants have filed herewith the form PTOL-85b for the application, along with payment of the issue and publication fees, in response to the Notice of Allowance mailed December 27, 2007. If the Office denies the petition to accept the unavoidably delayed payment of the issue and publication fees, please charge to Deposit Account No. 02-4550 the fee of \$1,540.00 as required by 37 C.F.R. 1.17(m). In addition to being unavoidable, the entire delay in filing the form PTOL-85b (along with payment of the issue and publication fees) from the due date for replying to the Notice of Allowance (March 27, 2008) to the filing date of this petition was unintentional.

The Applicants respectfully request revival of the referenced application.

Respectfully submitted,

DETAILED ACTION

Information Disclosure Statement

1. Information disclosure statements submitted on Nov 30 2007, May 07 2007, Mar 03 2006 and Jul 30 2004 have been considered by the examiner.
2. Claims 1-21, 23, 25, 27-28, 33-60, 62-63, 66, 68, 70-71, 76-77, 80, 82, and 84 are cancelled from further prosecution.
3. Independent Claims 22, 26, 64, 69, 78 and 83 are allowed. Dependent Claims 24, 29-32, 65, 67, 72-75, 79, 81 and 85-91 are allowed being dependent on the independent claims.

Allowable Subject Matter

Non of the prior art on record teaches or fairly suggests the rules of the DC and the AC predictions such as if the top-left block, the left block and the top block are intra-coded, the selected DC predictor depends on respective DC values of the top-left block the left block, and the top block; if the top-left block is not intra-coded but the left block and the top block are, intra-coded, the selected DC predictor depends on the respective DC values of the top block and the left block; if the left block is not intra-coded but the top block is intra-coded, the selected DC predictor is the DC value of the top block; if the top block is not intra-coded but the left block is intra-coded, the selected D.C predictor is the DC value of the left block; if the left block is not intra-coded and the top block is not

intra-coded, D.C prediction is skipped from the current block; obtaining a DC value for the current block, wherein the obtaining comprises; if DC prediction is skipped for the current block, using the DC differential as the DC value for the current block; and if DC prediction is used for the current block, adding the selected DC predictor to the DC differential and using the DC value in reconstruction of the current block. as recited in Claims 22, 26, 64, 69,78 and 83. The closest prior arts of record US 5974184, US 5959674, US 20040141654 and US 6215905 shows the AC and DC predictions using the techniques of differencing and threshold but none of them select the DC and AC values as recited in the Claims 22, 26, 64, 69,78 and 83, therefore it is allowable subject matter. Dependent Claims 24, 29-32, 65, 67, 72-75, 79, 81 and 85-91 are allowed being dependent on the independent claims.
